

Statistics Committee
7th meeting
24 September 2014
London, United Kingdom

**Exports of organic coffee and
differentiated coffees
Calendar years 2005 to 2013
and January to June 2014**

Background

1. With the entry into force of the ICA 2007 in February 2011, the Rules for Statistics – Certificates of Origin (document [ICC-102-9](#)) came into effect, and Members were given 12 months to adapt their systems to the new requirements. The new Rules aim to facilitate the collection of data on the exports of organic¹ and differentiated coffees based on Certificates of Origin, although the provision of data on the latter is strictly voluntary. This report includes data received under the new Rules, as well as data previously provided by Members extracted from Certificates of Origin and Statistical Reports.

2. Tables 1 and 2 show the volume of exports of organic coffee by exporting Members, in calendar years 2005 to 2013 and for January to June 2014 by origin and by destination based on Certificates of Origin and Statistical Reports, respectively. Graph 1 shows the evolution of exports of this segment of the market in the period covered by this report based on these sources.

3. Information on differentiated coffees is not available prior to 2008. Table 3 shows the volume of exports of differentiated coffees by origin and by destination in calendar years 2008 to 2013 and during January to June 2014. Graphs 2 and 3, respectively, show the share of these exports by origin and by destination in calendar year 2013. On the basis of the information extracted from Certificates of Origin, there has been an increase to 3.11 million bags (equivalent to 88.2%) in 2013 over the volume of 1.65 million bags reported in 2012. The substantial increase in the reporting of differentiated coffees during the past two calendar years indicates a significant improvement in the voluntary reporting of the trade in differentiated coffees.

4. The Organization will continue to monitor exports of this market segment.

Action

The Statistics Committee is requested to take note of this document.

¹ In accordance with the Rules on Statistics – Certificates of Origin contained in document [ICC-102-9](#), exporting Members undertake full responsibility for ensuring that the certification of organic coffee complies with the specifications set out in ISO Guide 65 – General Requirements for bodies operating products certification.
