Background

1. The following report provides a summary of the status of projects sponsored by the ICO.

2. As at 9 March 2018, 37 projects totalling around US$100.3 million have been funded (i) by the Common Fund for Commodities (CFC) (US$52.4 million); (ii) by bilateral and multilateral donor institutions in the form of co-financing (US$28.5 million); and (iii) by the beneficiary countries in the form of counterpart contributions (US$19.4 million).

3. A summary of each project is listed in the attached table (Annex I) which is divided into three sections, as follows: Section I: Projects under implementation/to be started; Section II: Projects endorsed by the ICC and seeking funds for implementation and Section III: Concluded Projects. For more extensive details of the projects, Members should consult the ICO website. A list of acronyms used in this document is contained in Annex II.

4. Proposals to be considered by the Council in September 2018 should reach the Organization before 31 July 2018. It should be noted that the CFC continues to finance projects under a new format and has issued its 12th Open Call for Proposals, which will be closed by 15 April 2018. Members desiring to submit proposals are invited to seek guidance from the Secretariat.

5. In order to meet the ICO Strategic Goal III: ‘Facilitating the development of projects and promotion programmes through public-private partnerships’, and the request of Members to reinvigorate the project function of the ICO, the Secretariat, has prepared a proposal for the establishment of a Trust Fund which will be submitted to the Finance and Administration Committee (FA-179/18) for their consideration and, if appropriate, approval. The proposal is part of the ICO’s renewed efforts to develop a strategy for projects that defines the Organization’s role in the design, funding, execution, and evaluation of projects, and enhances its capability to mobilize extra-budgetary resources.

Action

The Projects Committee is requested to take note of this report and Annexes.

<td>1.1</td>
<td>Qualitative and quantitative rehabilitation of coffee with the aim of improving living conditions of coffee farmers afflicted and displaced by war in the Democratic Republic of Congo</td>
<td>Location: Congo (Dem. Rep.) PEA: VECO Duration: 4 years</td>
<td>US$1,611,447 2. US$1,368,990 3. US$0 4. US$242,455</td>
<td>Proposal: WP-Board 1055/08 VSC comments: EB-3953/08 EB-3960/09 Progress report: PJ-80/14 (Annex I) PJ-86/15 (Annex III) PJ-92/15 (Annex III) PJ-100/16 (Annex III) PJ-104/16 (Annex III) PJ-111/17 (Annex II) PJ-116/17 (Annex II)</td>
<td>The aim of this project is to rehabilitate the coffee sector through the creation of centres for propagation and distribution, the establishment of extension and support teams and making available to farmers high performance cuttings, essential inputs and appropriate guidance.</td>
<td>ICO VSC: Sep 2008 and Mar 2009 ICO ICC: Mar 2009 CFC CC: Jul 2011 CFC EB: Oct 2011</td>
<td>Follow-up: After the CFC appointed VECO (VREDESEILANDEN), a Belgian non-profit organization, as the PEA the project legal documents were signed in Nov 2013. The project was launched in Mar 2014. Activities are well underway in North and South Kivu. A consultant, Rabo International Advisory Services (RIAS), was appointed by the CFC to carry-out a mid-term review in mid-Mar 2016. The ICO supervision was postponed due to security issues in the project areas. The project will closed this year and a completion report is expected in September 2018.</td>

<td>Promoting a sustainable coffee sector in Burundi</td>
<td>Location: Burundi PEA: Kahawatu Foundation Duration: 5 years</td>
<td>1. US$9,400,000 2. US$0 * 3. US$0 4. US$0</td>
<td>Proposal: PJ-43/13 VSS comments: PJ-47/13 Progress report: PJ-86/15 (Annex II) PJ-92/15 (Annex II) PJ-100/16 (Annex II) PJ-104/16 (Annex II) PJ-111/17 (Annex I) PJ-116/17 (Annex I)</td>
<td>The main goal of this project is to promote the sustainable coffee sector through the improvement of productivity and production of high quality coffee and food crops to improve the livelihoods of coffee producers.</td>
<td>ICO VSS: Feb 2013 ICO ICC: Mar 2013 Follow-up: The project endorsed by the ICO Council in Mar 2013 is an illustration of the involvement of the private sector in promoting a sustainable coffee sector in Member countries. The Kahawatu Foundation set up by the private sector has appointed the project team in Burundi to start the implementation of the project with the first committed funds, while continuing to raise additional funding to cover all project activities. IFAD has granted project offices to Kahawatu in Bujumbura. Since the project inception in Mar 2014, the Foundation has secured two public-private partnership agreements to finance its activities, including US$1.1 million with IDH and SUCAFINA (early 2014), GIZ and SUCAFINA S.A. for US$500,000 (Nov 2014). The Executive Director has written to the African Development Bank for financial assistance. The ICO undertook a supervision mission in Feb 2015 to assess the progress of its implementation. The budget has been adjusted to US$1.6 million to cover activities over four years (2013-2017). Additional financial support is still awaited to strengthen project activities and to cover all coffee-producing areas in Burundi as well as replicate the model in other countries. A number of partners support the project, including SUCAFINA S.A., Nestlé, Starbucks, Jacobs Douwe Egberts, Mitsubishi Motors, GIZ, Fondazione Ernesto Illy, USAID, IDH, IFAD and ICO.</td>

PJ-112/17 | This project proposal is designed to improve livelihoods of small-scale coffee farmers in Eastern and Central Africa on a sustainable basis. This will be achieved by promoting the production of high quality coffee, through the adoption of enhanced coffee processing practices. The high quality coffees will subsequently attract premium prices in the market thereby translating into improved household income. | ICO VSC: Sep 2008 and Mar 2009  
ICO ICC: Mar 2009  
CFC CC: Jan 2010  
CFC EB: Apr 2010 | Follow-up: The project launch took place in Aug 2011 in Ethiopia following which activities started in the two participating countries. A planning workshop took place in Apr 2015 in Ethiopia to prepare activities for the final year of the project. A consultant appointed by the CFC carried out an overall assessment of the effectiveness and efficiency of the project implementation since its inception. Project activities have ended with the final workshop organized in Nov 2016. A summary project completion report was circulated in Mar 2017. The Secretariat has included in the Programme of Activities for coffee year 2017/18 an activity to disseminate the main conclusions and recommendations of this project. |

<td>3.2</td>
<td>Building capacity in coffee certification and verification for specialty coffee farmers in AFCA countries CFC/ICO/45</td>
<td>Location: Burundi, Ethiopia, Kenya, Malawi, Rwanda, Tanzania, Uganda, Zambia and Zimbabwe PEA: AFCA (formerly EAFCA) Duration: 5 years (02/10 – 11/14) Concluded: Nov 2014</td>
<td>Proposal: WP-Board 1023/07 and Add. 1 VSC comments: EB-3923/07 See also Project 3.26: [CFC/ICO/29FT] Progress reports: PJ-8/11 (Annex VII) PJ-13/11 (Annex VI) PJ-29/12 (Annex IV) PJ-39/12 (Annex IV) PJ-48/13 (Annex II) PJ-54/13 (Annex IV) PJ-69/14 (Annex III) PJ-80/14 (Annex III) Executive Summary of the final report: PJ-87/15 (Annex II)</td>
<td>This proposal originated as the result of a study on ‘Setting up a fine coffee certification programme in Eastern Africa’ financed by the CFC in 2005 (see 3.26). The overall goal of the project is to build capacity in coffee certification and verification in Eastern Africa by creating a regional centre for certification and an outreach programme to ensure the active participation of producer groups.</td>
<td>ICO ICC: May 2007 CFC CC: Jan 2009 CFC EB: Apr 2009 Follow-up: The launch workshop took place on 12 Feb 2010 in Mombasa, Kenya followed by a conference on coffee certification in Jun 2010 in Nairobi with the participation of all certification standard owners including Utz Certified, Organic, Starbucks, Rainforest Alliance, Fairtrade Labelling Organization (FLO) and 4C Association. The implementation of project activities is being done in nine participating countries of the Eastern African region. A supervision mission took place in Feb 2014 in Burundi to review the remaining activities including the finalization of the IT portal and farmer training in different countries. The project closing workshop took place in Nov 2014 in Nairobi. A representative of the PEA reported to the Projects Committee in Sep 2014 on the main achievements of the project. The project was concluded in Nov 2014. An Executive Summary of the final report was circulated in Mar 2015 and a full report is available from the Secretariat upon request. Moreover, the project’s main results and reports are available on the AFCA website: <a href="http://www.eafca.org">www.eafca.org</a>.</td>

<td>3.5</td>
<td>Economic Crises and Commodity dependent LDCs: Mapping the exposure to market volatility and building resilience to future crises</td>
<td>Location: Tanzania and Zambia (Anglophone), Benin and Burundi (Francophone), Cambodia, Lao PDR and Nepal from the Asian region PEA: UNCTAD Division on Africa, LDCs and Special Programmes Duration: 1 year (10/10 – 10/11) Extended until 12/13 Concluded: Dec 2013</td>
<td>1. US$532,250 2. US$429,250 3. US$0 4. US$103,000 UN LDC IV - UN OHRLS UNCTAD Trust Fund</td>
<td>Proposal: PJ-6/11 Progress reports: PJ-29/12 (Annex VI) PJ-39/12 (Annex VI) PJ-48/13 (Annex IV)</td>
<td>The project examines and analyses the impact of the economic crisis on LDCs with a view to proposing policy responses for recovery and measures to insulate/reduce impact of such crisis on their economies in future. In particular, it would look into the vulnerability of commodity dependent LDCs resulting from their large exposure to external markets, limited diversification and poor capital base. This vulnerability is particularly important in the context of the volatility of the global markets, exemplified by the current economic and financial crisis.</td>
<td>ICO ICC – Sep 2010: The Council noted the report given by the Executive Director on the 17th Annual Meeting of the CFC and International Commodity Bodies (ICBs) held in Japan on 31 Aug and 1 Sep 2010, where participants had discussed the impact of the financial and economic crisis on commodities, new contributions by 2012, the future role and mandate of the CFC and preparations for the Fourth United Nations Conference on Least Developed Countries (LDC-IV). Subsequently, the ICO was appointed (on behalf of all the other ICBs) to supervise the implementation of the project submitted by UNCTAD to the CFC. The outcome of this project was presented at the Fourth UN Conference on LDCs (UN LDC-IV) in Istanbul, Turkey, in May 2011 and in Doha, Qatar in Apr 2012. CFC CC: Jul 2010 CFC EB: Oct 2010 Follow-up: The representative of UNCTAD has been reporting regularly to the Projects Committee on progress and achievements reached. Dissemination activities were carried out in Cambodia in Oct 2013.</td>

Executive Summary of the final report: PJ-70/14 (Annex II) | The central objective of the Fast-Track project is to consolidate income and food security through the promotion of environmentally friendly farming practices under the existing credit revolving fund. The project will also assist in strengthening extension services with Good Agricultural Practices using livestock waste as fertilizer for food and coffee production. It will also contribute to the improvement of farmers' capacity in credit and savings management as well as assisting in the preparation of a large scale project proposal to cover all coffee producers in Burundi. | ICO VSS: Feb 2012  
ICO ICC: Mar 2012  
CFC MD: Feb 2012  
Follow up: The CFC considered funding this proposal as an extension of project CFC/ICO/30. Implementation started in Aug 2012. A supervision mission took place in Aug 2013 to discuss the future use of the revolving fund. The project was concluded in Dec 2013 after a six-month extension. An Executive Summary of the final report was circulated to the Council in Mar 2014. |

Executive Summary of the final report: P1-70/14 (Annex III) | The project will rehabilitate neglected State coffee plantations into small family production units, and will assist the settlement of displaced farm families, giving the chance to earn an income from coffee production. | ICO ICC: Jan 1999  
CFC CC: Jul 2000  
CFC EB: Oct 2000  
Follow-up: The project was extended for two years on the recommendation of the MTE which took place in Jan 2009. Following a supervisory mission in Dec 2009 a new contract with CABI has been signed and INCA has the sole responsibility for the implementation of the project. The CFC and the ICO carried out a supervision mission to Angola in May 2011 and the project has been further extended for two years. A closing workshop took place in Aug 2013 in Angola. A representative of INCA presented a summary of major achievements of the project in Sep 2013. An Executive Summary of the final report was circulated to the Council in Mar 2014. |

ICO ICC: May 2006  
Follow-up: The project was launched in Apr 2008. Activities have started in all participating countries and scientific information is being exchanged between India and African countries. A MTR followed by a workshop to discuss project results took place in Kenya and Zimbabwe in Jul 2011. Another MTR took place in India in Jan 2012. A closing workshop was held in India on 19 and 20 Mar 2013. An Executive Summary of the final report was circulated in Sep 2013. A full completion report is available upon request from the Secretariat. Due to the recent outbreak of coffee leaf rust in many producing countries, the Secretariat has included in the Programme of Activities for coffee year 2017/18 an activity to disseminate the main conclusions and recommendations of this project. A dissemination workshop will take place in Mexico city during the 121st Session of the Council in April 2018. |

PJ-13/11 (Annex V)  
PJ-29/12 (Annex III)  
PJ-39/12 (Annex III)  
Executive Summary of the final report:  
PJ-55/13 (Annex II) | Development and implementation of a sustainable credit programme for diversification in coffee-producing areas.  
ICO ICC: May 2003  
Follow-up: The project was launched in Burundi and Côte d’Ivoire respectively in Mar and Apr 2008. A supervision mission to Côte d’Ivoire took place in Jun 2011. A concluding workshop to discuss its achievements and the way forward took place in Côte d’Ivoire in Apr 2012 with the participation of the Managing Director of the CFC. The project has been extended for one year in Côte d’Ivoire with the entire funding provided by the country while a fast track funding has been granted by the CFC to Burundi for an extension taking into account additional activities. The project concluded in Dec 2012. An Executive Summary of the final report was circulated to the Council in Sep 2013. |
| 3.11 | Improving coffee productivity in Yemen  
*(Concept note)* | Location: Yemen  
PEA: Consultant  
Duration: 6 months Concluded: 2012 | 1. US$30,000  
2. US$0  
3. US$  
4. US$ | Proposal:  
PJ-25/12  
VSS comments:  
PJ-21/12 | The project aims at improving and increasing production and boosting the productive capacity in Yemen with a total area of 20,000 hectares by helping and encouraging small farmers to develop agricultural capacity through introducing modern methods in agricultural and harvesting operations, and improving water efficiency.  
ICO VSS: Feb 2012  
ICO ICC: Mar 2012  
CFC PAC: Jan 2012  
CFC MD: Feb 2012  
Follow up: After PPF was granted by the CFC in Feb 2012 the full proposal was prepared by the consultant. |

### Section 3.34: Coffee Processing Study – Rwanda

**Project Title and ID**: Coffee processing study – Rwanda  
**CFC/ICO/22FT**

**Location**: Rwanda  
**PEA**: Consultants  
**Duration**: Concluded: 2000

|---------------|-------------------------------|-----------------------------|-----------------------------|------------------|-------------|--------------------------|----------|-----------------------------|
| US$68,000     | US$68,000                     | US$0                        | US$0                        | Proposal: EB-3695/98; Executive Summary: ICC-81-4  
Final report: EB-3757/00; CFC Technical Paper No. 7  
The project’s objective was to improve Rwandan coffee production by analysing the main problems associated with Rwandan coffee quality, identifying action to restore quality and competitiveness, and assessing the feasibility of wet processing plant facilities set up by private investors. | ICO ICC: Jan 1999  
CFC CC: Jan 1999 (in principle) / CFC EB: Oct 1999  
The project CFC/ICO/22 was developed as a result of this study. A paper was published by the CFC (Technical Paper No. 7 – Rehabilitation of the coffee sector: Rwanda. Development of washed processing of coffee within a framework of private investment, Amsterdam, 2001). |

### Section 3.35: Study on Coffee Marketing Systems and Trading Policies in Selected Coffee-Producing Countries

**Project Title and ID**: Study on coffee marketing systems and trading policies in selected coffee-producing countries  
**CFC/ICO/04FA**

**Location**: Angola, Cameroon, Congo (Dem. Rep.), Ethiopia, Ghana, Guatemala, India, Madagascar and Togo  
**PEA**: World Bank  
**Duration**: Concluded: 2000

|---------------|-------------------------------|-----------------------------|-----------------------------|------------------|-------------|--------------------------|----------|-----------------------------|
individual country studies for each of the nine participating countries, EB-3752/00 (analytical report by consultant), CFC Technical Paper No. 3  
The study evaluated coffee marketing systems and policies and identified factors important for effective marketing, helping to guide developing countries in improving the marketing of their coffee. | ICO ICC: May 1995  
The results of this project led to the development by the ICO of a series of coffee country profiles for producing and consuming countries. |

### Section 3.36: Development of Gourmet Coffee Potential

**Project Title and ID**: Development of gourmet coffee potential  
**CFC/ICO/01**

**Location**: Brazil, Burundi, Ethiopia, Papua New Guinea and Uganda  
**PEA**: ITC  
**Duration**: Concluded: 2000

|---------------|-------------------------------|-----------------------------|-----------------------------|------------------|-------------|--------------------------|----------|-----------------------------|
| US$1,412,000  | US$1,018,000                  | US$110,000                  | US$284,000                  | Proposal: EB-3533/95 Rev. 3  
Completion report: ICC-81-2  
Gourmet coffee project Volume 1 (Summary, marketing and technology, marketing reports) and Volume 2 (country reports)  
This project demonstrated the return on investment potential of the gourmet approach, identified new gourmet coffees and assisted countries in marketing them. Technologies developed have been continued by the Cup of Excellence Programme. | ICO ICC: May 1995  
This project demonstrated that the proactive involvement of country, private sector and civil society representatives, during its implementation, can lead to a successful assumption of responsibility by stakeholders, thereby making the project activities sustainable over time. It generated several activities, such as a section of the Coffee Guide website (Chapter 2: Niche markets) and the Cup of Excellence Programme. |
