

## New ICO website

### Background

The Executive Director is delighted to announce that the ICO has a new website, now live at [www.icocoffee.org](http://www.icocoffee.org).

The fresh and up-to-date design boasts the following benefits, among others:

- a modern, user-friendly layout;
- inclusion of the ICO's new market development toolkit;
- direct access to the World Coffee Statistics Database; and
- an optimized search function and analytics.

The new website is currently available in English. Automatic translation will be provided into French, Portuguese and Spanish during an initial transition period.

The former website ([www.ico.org](http://www.ico.org)) will remain operational for a two-month trial period, where documents will continue to be uploaded in all ICO languages.

Please contact the [ICO Secretariat](#) with any comments or suggestions. We look forward to receiving your feedback.
