Background

1. In March 2011, the Council noted the importance of the work of the Virtual Screening Committee (VSC) which had operated under the 2001 Agreement. On the recommendation of the Projects Committee, it decided to establish a Virtual Screening Subcommittee (VSS) under the 2007 Agreement with the mandate of expediting and evaluating new project proposals for consideration by the Projects Committee, for a further interim temporary period, pending the consideration by the Projects Committee of proposals for the future technical screening of projects. The VSS is currently composed of Brazil, Côte d’Ivoire, Guatemala, Indonesia as Exporting Members, and European Union and the USA as Importing Members. The terms of reference for the VSS are attached as an Annex.

2. It is proposed that if further time is needed by the Projects Committee to reach a decision on the future technical screening of projects in September 2011, the VSS could operate for a further interim period. The text of a draft decision is given below:

   The Council decides that the Virtual Screening Subcommittee (VSS) established in March 2011 should continue to operate for a further interim temporary period until arrangements for the technical screening of projects under the 2007 Agreement have been finalized.

Action

The Projects Committee is requested to consider this document and submit its recommendation to the Council.
