Background

1. This document contains proposals for activities by the Organization for coffee year 2009/10. It has been prepared on the assumption that the 2007 Agreement will enter into force during the next coffee year. The activities are based on the strategic goals and actions in the draft strategic action plan for 2009-2014 (document WP-Council 173/08 Rev. 2), which will be considered by the Council at its 102nd Session in March 2009. The draft programme is subject to further revision in the light of changes to the strategic action plan. It is suggested that in the case of proposals for the draft strategic plan by Members, specific activities should be included once the plan has been approved (especially with reference to Actions 26, 34, 38, 43 and 44 of WP-Council 173/08 Rev. 2).

2. The document comprises two sections: Section I includes specific activities, some of which have financial implications, while Section II includes regular activities with no financial implications. It is proposed that Section II should be omitted from future programmes as activities in this section relate to the day-to-day work of the Organization.

3. Members are invited to make proposals for a seminar or workshop in 2009/10 (Activity 29 in Section I) which will be reflected in the revised programme approved by the Council in September 2009.

4. An estimate of the costs of specific activities in 2009/10 is given in Annex I. These costs have been incorporated in the draft Administrative Budget for the financial year 2009/10 and do not represent expenditure over and above that contained in the budget proposals. Annex II contains a list of acronyms used in this document.

Action

The Council is requested to consider this document.
