Statistics

E

Statistics Committee
24 September 2008
London, England

**Compliance with the provision of
statistical data
Coffee years 2001/02 to 2006/07
October 2007 to June 2008**

Background

1. This document provides information on the compliance of Members with the Rules on Statistics – Statistical Reports (document EB-3830/02) approved by the Council in September 2002. In the case of exporting Members, it also gives their compliance with the Rules for the application of a system of Certificates of Origin contained in document EB-3775/01.
2. The information contained herein covers the life of the 2001 Agreement (six complete coffee years, 2001/02 to 2006/07, and from October 2007 to June 2008). It gives the requirements for the supply of statistical information with details of specific problems for each year in the respective Annexes.
3. Compliance by exporting Members in respect of the provision of timely statistics based on monthly reports and/or Certificates of Origin in calendar years 2004 to 2007 is given in Annex 10. Similarly, Annex 11 shows the compliance by importing Members in the same period.

Action

The Statistics Committee is requested to examine the compliance status of each Member of the Organization, in order to make the appropriate recommendations to the Council.

**COMPLIANCE WITH THE PROVISION OF STATISTICAL DATA
COFFEE YEARS 2001/02 TO 2006/07
OCTOBER 2007 TO JUNE 2008**

Statistics provided by exporting Members

- *Preliminary monthly exports (Annex 1)*

1. Exporting Members are requested to send to the Organization, not later than **30 days** after the close of each month, information on the total exports in the previous month. If final figures are not available, provisional figures or estimates may be provided (see paragraph 3 (a) of the Rules on Statistics – Statistical Reports, document EB-3830/02).

- *Monthly Reports on exports (Annex 2)*

2. Exporting Members are requested to send to the Organization, not later than **60 days** after the close of each month, information on the volume and value of exports by form of coffee and by country of destination for the month under report. The information should be based on the relevant Certificates of Origin issued to cover coffee shipped during that period under report and should comply with the format specified in Annex I-B of the Rules on Statistics – Statistical Reports, document EB-3830/02.

- *Certificates of Origin (Annex 3)*

3. Exporting Members are requested to transmit data in electronic files or to forward the first copy of each Certificate of Origin together with a copy of the relevant Bill of Lading to the Organization (see paragraph 5 of Rule 4 of the Rules on Statistics – System of Certificates of Origin, document EB-3775/01). From October 2007 to June 2008, 27 exporting Members, which together accounted for nearly 92% of world exports, are sending data electronically. Of the 77,319 records contained in the Certificates of Origin database for the period covered in this report, 76,298 records – equivalent to over 98% of the total – were transferred electronically whereas 1,021 records – equivalent to just over 1% – were actually keyed in. The Organization is still considering ways to provide technical and/or financial assistance for the implementation of an efficient statistical system in exporting Members showing poor compliance with the statistical rules. The entry into force of the ICA 2007 will bring into effect some changes to the current rules¹ so it would be wise to wait until the Agreement enters into force to review this matter. In the meantime, any Member country that encounters difficulties in implementing the Rules is welcome to contact the Organization to request assistance.

¹ See documents WP-Council 179/08 and 180/08.

- *Monthly prices paid to growers (Annex 4)*

4. Exporting Members are requested to send to the Organization information on the average price actually received by growers for their produce or the minimum price, if any, guaranteed by the Government to the growers on a monthly basis (see paragraph 9 of the Rules on Statistics – Statistical Reports, document EB-3830/02).

- *Annual data on opening stocks, production and internal consumption (Annex 5)*

5. Exporting Members are requested to send to the Organization quarterly estimates of production and domestic consumption for the current crop year and the following crop year and closing stocks at the end of each crop year (see Annex I-A and paragraph 2 of the Rules on Statistics – Statistical Reports, document EB-3830/02). Those exporting Members producing/exporting more than one type of coffee or using different processing methods (dry and wet) are also requested to indicate, in percentage terms, the type and method of processing.

Statistics provided by importing Members

- *Monthly Reports on imports and re-exports (Annex 6)*

6. Importing Members are requested to send complete reports to the Organization by email or fax, not later than **60 days** after the close of each month, information on the volume and value of imports by form of coffee and by country of origin and on the volume and value of re-exports by form of coffee and by country of destination for the month under report (see Annexes II-A and II-B and pages 3 and 4 of the Rules on Statistics – Statistical Reports, document EB-3830/02).

- *Monthly retail prices (Annex 7)*

7. Importing Members are requested to send to the Organization information on the representative retail market prices for roasted and/or soluble coffee for the month under report (see paragraph 10 of the Rules on Statistics – Statistical Reports, document EB-3830/02).

- *Information on roastings (Annex 8)*

8. Importing Members are requested to send to the Organization information on the amount of green coffee that has been roasted at the end of each quarter/calendar year, where available (see paragraph 3 (a) of the Rules on Statistics – Statistical Reports, document EB-3830/02).

- *Information on inventories (Annex 9)*

9. Importing Members are requested to send to the Organization information on the stocks of green coffee held by importers and roasters, including stocks in free ports where such exist, on the last day of the quarter/calendar year, if this information is available (see paragraph 3 (b) of the Rules on Statistics – Statistical Reports, document EB-3830/02).

- *Information on changes made on taxes and duties, laws and regulations of coffee exports and imports in the country*

10. All Members are requested to send to the Organization information on changes or revisions in the current level of taxes and duties on coffee exports/imports, or to the laws and regulations of coffee exports/imports in the country (see paragraph 5 of the Rules on Statistics – Statistical Reports, document EB-3830/02). Compliance with this specific item is covered in paragraph 16 below.

Compliance with Resolution Number 420

11. Following the adoption of Resolution Number 420 by the Council in May 2004, the Executive Director issued document ED-1918/04 requesting exporting Members to comply with the provisions of the Resolution. As compliance with the provisions of the Resolution is voluntary, the information on quality received from exporting Members could be monitored for coffee shipments that took place from 1 June 2004. Document EB-3953/08 brings the latest progress report on the implementation of the Coffee Quality-Improvement Programme.

Summary tables and conclusions (Annexes 10 and 11)

12. Annex 10 shows that for 25 exporting Members compliance with the Organizations' statistical requirements is full and satisfactory. This represents around 87% of average exports in calendar years 2004 to 2007. Exports by ten producing non-member countries listed represent less than 4% of total exports in the period. Similarly, Annex 11 shows full or satisfactory compliance by 29 importing Members representing over 98% of average annual imports by all importing countries in the period. It should be noted that two EU Members, namely Bulgaria and Hungary, have yet to comply with the statistical Rules of the Organization.

13. There are 10 exporting Members failing to comply with their statistical obligations. They represent less than 1% of the average exports in the period under consideration. In addition to these, 10 exporting Members, together accounting for just under 9% of the exports in the period, also show a poor compliance performance. The provision of technical assistance to exporting countries is still under consideration and will be kept under review in light of the ICA 2007 coming into force. When the manual of best practice, under preparation by selected exporting countries, is ready the Organization will contact exporting countries with poor or no compliance to discuss how to proceed with this matter.

14. Compliance with the request to provide estimated production and internal consumption by most exporting Members was unsatisfactory, particularly in the last two years as shown by the information given in Annex 5. Members are reminded that the provision of this information is of vital importance for the reliability of the statistics on supply released by the Organization.

15. Bulgaria and Hungary are still reluctant to comply with the statistical rules of the Organization. Efforts will continue to be made so that the authorities in these countries will eventually comply with the Organization's statistical rules.

16. Exporting and importing Members are required to keep the Organization informed of any changes to their existing level of taxes and duties on imports and exports of coffee and on the current laws and regulations currently in effect in each country. Reports from various sources have been consulted in order to keep our records fairly up to date with this requirement in respect of most importing Members. However, it should be noted that most Members are still to comply with this request.
