Statistics Committee  
24 May 2006  
London, England

**Organic coffee export statistics  
Calendar year 2005**

## Background

1. As requested by the Statistics Committee, the Secretariat has continued to monitor exports of organic coffee based on information received from exporting Members in compliance with the Rules for the application of a system of Certificates of Origin, contained in document EB-3775/01, which came into effect on 1 October 2001.
2. Data may be incomplete or partial for some exporting countries despite efforts made by most exporting Members to adjust their statistical systems to comply with the Rules.
3. The attached tables show exports of coffee labelled as “organic<sup>1</sup>” by origin, by destination and by form in calendar year 2005. Based on the information received, total organic exports in calendar year 2005 amount to 797,616 bags, of which 794,813 bags correspond to green coffee (equivalent to 99.65% of the total).
4. The volume of total exports shown in Annex I includes 450,000 bags estimated to have been exported by Peru, in accordance with information obtained from the Peruvian coffee authorities’ website. This volume represents 56.42% of the total volume of all organic coffee exported in the period. The percentage share by quarter of the total volume of organic coffee exported in 2005 is also indicated, as is the percentage share by form of coffee of the total as well as the percentage of each exporting country in the total. Annex II shows the volume of exports by origin and to each destination (excluding those from Peru).

## Action

The Statistics Committee is requested to take note of this document.

---

<sup>1</sup> In accordance with the Rules contained in document EB-3775/01, exporting Members are to take full responsibility for ensuring that the certification of organic coffee complies with the specifications set out in ISO Guide 65 – General Requirements for bodies operating products certification.
