Coffee Development Projects

Progress Report

Background

1. The following report provides a summary of the status of projects submitted to the ICO for technical appraisal and for funding consideration by external sources and those already approved and funded.
2. As at 6 September 2016, 38 projects totalling around US\$100.3 million have been funded by the Common Fund for Commodities (CFC) (US\$52.4 million), by bilateral and multilateral donor institutions in the form of co-financing (US\$28.5 million), and by the beneficiary countries in the form of counterpart contributions (US\$19.3 million).
3. A summary of each project is listed in the attached table which is divided into four sections, as follows: Section I: Projects – under technical consideration by the ICO (new or revised); Section II: Projects – Under implementation/to be started; Section III: Projects – Endorsed by the ICC and seeking funds for implementation and Section IV: Projects – Concluded. For more extensive details of the projects, Members should consult the [ICO website](#).
4. Proposals to be considered by the Council in March 2017 should reach the Organization before **15 December 2016**. It should be noted that the Common Fund for Commodities has issued its 9th Open Call for Proposals which will be closed by 31 October 2016. A list of acronyms used in this document is contained in the attached Annex.

2.3	Promoting a sustainable coffee sector in Burundi	Location: Burundi PEA: Kahawatu foundation Duration: 5 years	1. US\$9,400,000 2. US\$0 * 3. US\$0 4. US\$0	Proposal: PJ-43/13 VSS comments: PJ-47/13 Progress report: PJ-86/15 (Annex II) PJ-92/15 (Annex II) PJ-100/16 (Annex II) PJ-104/16 (Annex II)	The main goal of this project is to Promote the sustainable coffee sector through the improvement of productivity and production of high quality coffee and food crops to improve the livelihoods of coffee producers.	ICO VSS: Feb 2013 ICO ICC: Mar 2013 Follow-up: The project endorsed by the ICO Council in Mar 2013 is an illustration of the involvement of the private sector in promoting a sustainable coffee sector in Member countries. The Kahawatu Foundation set up by the private sector has appointed the project team in Burundi to start the implementation of the project with the first committed funds while continuing to raise additional funding to cover all project activities. IFAD has granted project offices to Kahawatu in Bujumbura. Since the project inception in Mar 2014, the foundation has secured two public-private partnership agreements to finance its activities, including US\$1.1 million with IDH and SUCAFINA (early 2014), GIZ and Sucafina S.A for US\$500,000 (Nov 2014). The Executive Director has written to the African Development Bank for financial assistance. The ICO undertook a supervision mission in Feb 2015 to assess the progress of its implementation. The budget has been adjusted to US\$1.6 million to cover activities over four years (2013-2017). Additional financial support is still awaited to strengthen the project activities and to cover all coffee producing areas in Burundi as well as replicating the model in other countries. A progress report will be circulated in Sep 2016.

SECTION III: PROJECTS – ENDORSED BY THE ICC AND SEEKING FUNDS FOR IMPLEMENTATION						
3.1	Revitalization of the coffee sector of Zimbabwe through enhancement of the coffee value chain	Location: Zimbabwe PEA: Zimbabwe Coffee Mill Duration 3 years	1. US\$6,780,000 2. US\$3,017,100 3. US\$ 4. US\$3,762,900	Proposal: PJ-65/13 PJ-83/15	The purpose of the programme is to revitalize coffee production in Zimbabwe through supporting smallholder farmer groups. This will be achieved through a sustainable increase in coffee production, productivity, quality and profitability through enhancement of the coffee value chain in Zimbabwe.	ICO VSS – Feb 2014 ICO VSS – Jan 2015 ICO ICC – Mar 2015: Follow-up: The proposal was considered by the Projects Committee and recommended its endorsement to the Council in Mar 2015. The Secretariat requested the proponent to submit the project to the CFC under the Open Call for Proposals system. However, the proponent missed the deadline, and it is expected that they will submit it to the 9 th Call for Proposals.
3.2	Improving the participation of women in the coffee value chain in Cameroon	Location: Cameroon PEA: CCIC Duration: 3 years	1. US\$1,219,400 2. US\$907,400 3. US\$25,000 4. US\$287,000	Proposal: PJ-66/14	The project aims to increase the income of women coffee farmers through building their capacity for better marketing and processing.	ICO VSS: Feb 2014 ICO ICC: Mar 2014 Follow-up: The Executive Director submitted the proposal to the CFC for consideration under its 4 th Open Call for Proposals issued in April 2014. However, the Consultative Committee of the CFC noted that the proposal still lacks transparent financial presentation and should need further improvement. The Secretariat requested the proponent to submit the project to the CFC under the Open Call for Proposals system. However, the proponent missed the deadline and is going to submit it to the next Open Call for Proposals. Another option is for this project to be included in the new partnership with the African Development Bank under the Africa Coffee Facility.

The overall goal of the project is to build capacity in coffee certification and verification in Eastern Africa by creating a regional centre for certification and an outreach programme to ensure the active participation of producer groups.	ICO ICC: May 2007 CFC CC: Jan 2009 CFC EB: Apr 2009 Follow-up: The launch workshop took place on 12 Feb 2010 in Mombasa, Kenya followed by a conference on coffee certification in Jun 2010 in Nairobi with the participation of all certification standard owners including Utz Certified, Organic, Starbucks, Rainforest Alliance, Fairtrade Labelling Organization (FLO) and 4C Association. The implementation of project activities is being done in nine participating countries of the Eastern African region. A supervision mission took place in Feb 2014 in Burundi to review the remaining activities including the finalization of the IT portal and farmer training in different countries. The project closing workshop took place in Nov 2014 in Nairobi. A representative of the PEA reported to the Projects Committee in Sep 2014 on the main achievement of the project. The project concluded in Nov 2014. An Executive Summary of the final report was circulated in Mar 2015 and a full report is available from the Secretariat upon request. Moreover, the project main results and reports are available on the AFCA website: www.eafca.org .

In particular, it would look into the vulnerability of commodity dependent LDCs resulting from their large exposure to external markets, limited diversification and poor capital base. This vulnerability is particularly important in the context of the volatility of the global markets, exemplified by the current economic and financial crisis.	ICO ICC – Sep 2010: The Council noted the report given by the Executive Director on the 17th Annual Meeting of the CFC and International Commodity Bodies (ICBs) held in Japan on 31 Aug and 1 Sep 2010, where participants had discussed the impact of the financial and economic crisis on commodities, new contributions by 2012, the future role and mandate of the CFC and preparations for the Fourth United Nations Conference on Least Developed Countries (LDC-IV). Subsequently, the ICO was appointed (on behalf of all the other ICBs) to supervise the implementation of the project submitted by UNCTAD to the CFC. The outcome of this project was presented at the Fourth UN Conference on LDCs (UN LDC-IV) in Istanbul, Turkey, in May 2011 and in Doha, Qatar in Apr 2012. CFC CC: Jul 2010 CFC EB: Oct 2010 Follow-up: The representative of UNCTAD has been reporting regularly to the Projects Committee on progress and achievements reached. Dissemination activities were carried out in Cambodia in Oct 2013.

ICO ICC: Sep 2000 (formal) CFC CC: Jul 2001 / CFC EB: Oct 2001 A dissemination workshop took place in India in Jun 2007 and a summary of the final report was circulated in May 2008. A final report was circulated to the participating countries during the 5 th African Scientific Coffee Conference in Kigali on 11 Feb 2009. This report is available for consultation in the ICO Library. The main results obtained include: In India, the adoption of practices such as two tiers of shade, the development of pheromones and regular tracing were suitable for the integrated management of the white stem borer. In Africa, biological control through the development of natural enemies appears to be preferred due to the high cost of chemical methods.
